new specials every week!

We strive to consistently offer delicious wholesome food, made from scratch at a fair price. Our first choice is always to use local, organic products. Our vegetable farm is certified organic by MOFGA and we primarily use our own vegetables in our kitchen. When we buy vegetables, we first look to other local farms, but when they are unable to meet our needs we purchase organic vegetables from out of state. We choose the meat purveyors in a similar way, if we are not raising the meat ourselves.

Please check our website for a listing of farms and purveyors that we work with.
